Prime Beachfront Location

On a privileged location, right in front of the Mediterranean Sea, and south-oriented, the iconic silhouette of this 12-storey high-end residential development will emerge as a landmark along Limassol's seafont.

The building's main features are its volumetry, which moves in the space in four directions, and its central void that forms an urban window. Its contour allows for the creation of verandas and terraces on every floor. Generating floating independent volumes separated by the central void, this remarkable evolving shape offers dramatic views in every direction from every floor of the building. The complex volumetry of the building and its glazed façade reflecting the sea and the sky will enhance Limassol's skyline.
